THE ANGLICAN CYCLE OF PRAYER

At the end of every meditation in Forward Day by Day is the day’s entry for the Anglican Cycle of Prayer (ACP). Maintained by the Anglican Communion Office in England, the ACP is a way to pray for every diocese and province in the Anglican Communion over a period of two years. The Anglican Communion has eighty million members in more than 160 countries—reflecting an astounding array of languages, cultures, and ministries.

Anglican Cycle of Prayer Spotlight: Forward Movement and Episcopal Relief & Development invite you to pray for our brothers and sisters throughout the world and with special intention for the Church of North India and the Diocese of Mumbai.

Although India has 27 cities with more than a million people, nearly 70% of the country lives in rural areas. Life in these communities mainly revolves around agriculture, but increased health and education services are needed to support the growing population. Episcopal Relief & Development’s primary partner in India is CASA, The Church’s Auxiliary for Social Action. CASA works nationally as the outreach arm of 25 Protestant and Orthodox churches in India to engage marginalized groups in sustainable development activities, overcoming poverty while fostering social justice and self-sufficiency throughout the country.

Episcopal Relief & Development is working with CASA to address the challenges faced by farmers, women, the landless, sharecroppers and other vulnerable people in the Yavatmal area of Maraharastra, India. The program introduces low-cost sustainable agricultural practices, offers training on financial literacy and savings and assists with production and marketing of agricultural and other products. Episcopal Relief & Development is also partnering with the Samadi Community Development Program of the Diocese of Durgapur, part of the Church of North India, on several projects in remote areas of West Bengal. This program works with small-scale farmers to increase their crop production through rainwater harvesting and helps people improve the health of their livestock.

Our micro-finance program provides loans to low-income families, women, seniors and young people so they can start small businesses, and women’s self-help groups provide encouragement and savings opportunities. Additionally, children’s literacy coaching centers in 35 villages are helping boys and girls graduate from primary school, with a particular focus on improving student performance and attendance.

The Church also trains women community health volunteers to conduct home visits, share information about disease prevention, monitor child health and nutrition, and encourage people to seek treatment for illnesses. Our program runs three rural clinics and regular health camps to provide basic health education, services and medicine.
